PropFlow

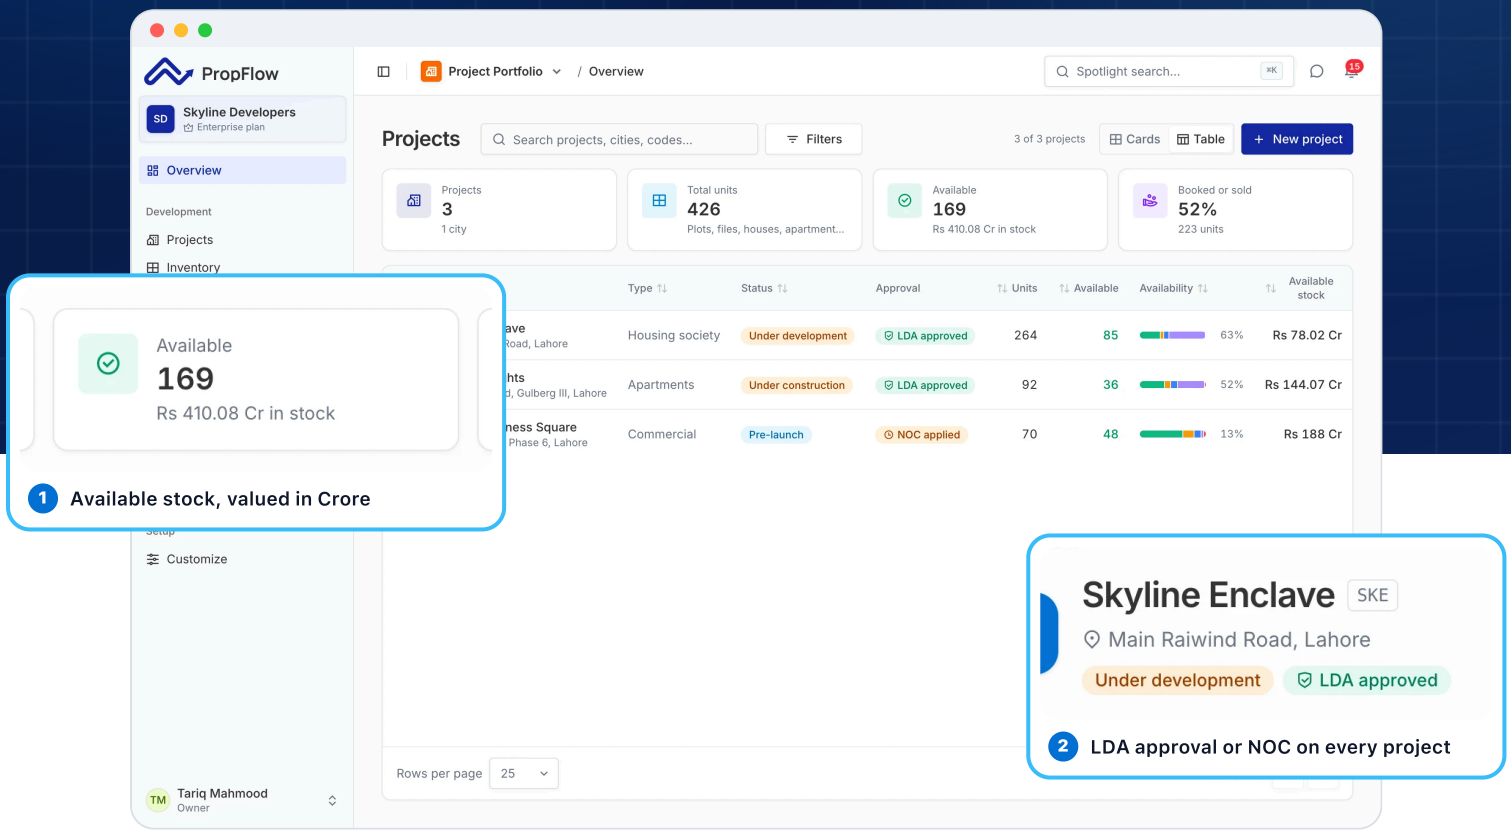

MADE FOR PAKISTAN

REAL ESTATE CRM & ERP

Run your projects from first enquiry to possession, in one place.

Marla and Kanal inventory with open files and balloting, a sales pipeline your agents actually use, installment plans and cheques, transfers and NDCs, dealer quotas and campaigns that show what each booking cost. All in Lac and Crore.

Housing societies | High-rise apartments | Commercial plazas | Farmhouse schemes | Builders | Agencies & dealers

BUILT FOR HOW PAKISTAN SELLS PROPERTY

Registers, Excel sheets and group chats can only take you so far

The same plot sold twice

- One live inventory. Token holds expire on their own, and dealers only see their quota.

Leads going cold

- Every lead gets an agent and a first call planned within minutes, with overdue alerts.

No idea what a booking cost

- Spend, leads, site visits and bookings for every campaign and channel, in Rupees.

Installments chased from a register

- Every buyer's schedule, SMS reminders and a cheque register: cleared or bounced.

Transfers and NDCs that take weeks

- A checklist for every transfer, NDC and possession; dues checked, letter printed.

Dealers selling stock you don't have

- Dealer quotas on live inventory, their own login, commission worked out with tax.

THE WHOLE JOURNEY

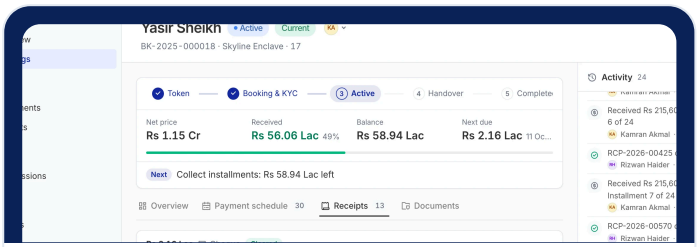

From first enquiry to possession, nothing falls between desks

Campaigns — Ads, forms, pages → **CRM** — Leads & site visits → **Booking** — Token, KYC, allotment → **Installments** — Receipts & cheques → **Transfers & NDC** — After-sales → **Possession** — Handover

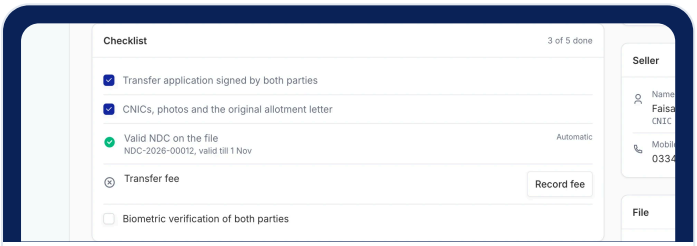

A pipeline your agents actually use

Leads from Facebook, your website and walk-ins get an agent, a score and the next call, on a board everyone shares.

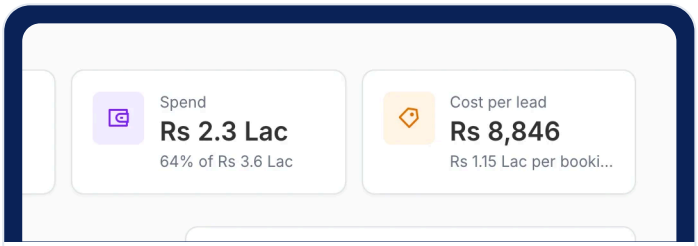

Every booking, from token to handover

Payment plans with premiums, receipts and cheques, allotment letters and SMS reminders before each installment.

Transfers and NDCs without the chasing

Checklists with dues and fees checked automatically, biometric and papers ticked off, letters printed at the end.

Know what every booking cost

Budget, leads, site visits and bookings for each campaign, so you spend where buyers actually come from.
